Surabaya, Jawa Timur, Indonesia

I am Nur Lintang Enjang Kinasih, a proactive fifth-semester Informatics Engineering student experienced in application development, IoT, and UI/UX design. Capable of building technological solutions such as mobile apps (Flutter), IoT prototypes, and AI-based applications. Currently deepening skills in Front-End, Back-End, and AI through an Independent Study program at Dicoding. Eager to contribute to innovative projects in a technology internship role.

Education

Universitas Negeri Surabaya - Surabaya, Indonesia <i>Undergraduate in Informatics Engineering, 3.79/4.00</i>	Aug 2023 - Aug 2027 (Expected)
Independent Study (Studi Independen) Asah led by Dicoding Indonesia <i>Learning Path: Front-End Web and Back-End with AI</i>	Aug 2025 - Jan 2026 (Expected)
SMA Negeri 1 Sumberpucung - Sumberpucung, Malang, Indonesia <i>Mathematics and Science</i>	Jul 2020 - Jul 2023

Project Experiences

Mobile Application Development Project - Surabaya, Indonesia <i>Academic Project</i> <ul style="list-style-type: none">Built a mobile application called "CodeMate" using Flutter with responsive features and Dart language.Integrated YouTube API for real-time educational content display.Applied responsive and user-friendly UI/UX design principles.
